## IBM SOLUTIONPACS AND SOFTWARE

### IBM SolutionPac(TM) Personal Publishing System

The IBM SolutionPac Personal Publishing System hardware components are:

- o an IBM Personal System/2(TM) Model 30 system unit
- o an IBM Personal System/2 Monochrome Display Model 8503 or IBM Personal System/2 Color Display Model 8513
- o an IBM Personal System/2 Mouse
- o a new IBM Personal Pageprinter, a laser printer that has a print density of 300 dots per inch and,
- o an IBM Personal Pageprinter Adapter.

The software components of the SolutionPac include:

- o DOS 3.3
- o Aldus PageMaker(R)
- o Microsoft(R) Windows, Microsoft Windows Paint and Microsoft Windows Write from Microsoft Corporation
- o The IBM Personal Pageprinter Adapter Program (a version of Adobe PostScript(R)).

The IBM SolutionPac Personal Publishing Option may be ordered to upgrade the IBM Personal Computer XT(TM) Model 286, Personal Computer AT(R) Models 99, 239, 319, and 339 and a Personal System/2 Model 30 to a Personal Publishing System. The PC XT and Personal Computer AT must be appropriately configured to include a minimum of 640KB of memory, a display with an Expanded Graphics Adapter (EGA) and a Microsoft Windows compatible mouse. The option SolutionPac contains:

- o the IBM Personal Pageprinter and Adapter
- o the IBM Personal Pageprinter Adapter Program
- o Microsoft Windows, Microsoft Windows Paint and Microsoft Windows Write
- o Aldus PageMaker.

(Note: DOS 3.3 must be installed on the processor.)

### IBM SolutionPac Publishing System VM Edition

IBM SolutionPac Publishing System VM Edition requires an IBM 9370, 43XX, or 3090 with the VM/SP or VMIS Operating System; Graphics Display Data Manager (GDDM) Version 1 Release 4, or Version 2; the VM batch monitor; and Document Composition Facility (DCF) Release 3.1 with foreground environment feature.

The optional features of Publishing System VM Edition, which also offer installation, training, and telephone support services, include the following:

Graphics

- o Publishing Systems DrawMaster
- o APL2
- o AT/GX 3277GA Emulator

Image

- o Image Handling Facility Version 2  
(Note: Requires GDDM Release 2.1)

Formula Formatter

- o Script Mathematical Formula Formatter

Printing

- o In addition to the 3812 and 3820 printing options, a Font Library Option is available for print font customizing.

### Legal Profession Series

Each Legal Profession Series configuration consists of Manac(TM) Information System for Attorneys - Omnilaw plus the following:

- o Lawyer's Assistant contains IBM DisplayWrite Assistant, IBM Filing Assistant, IBM Reporting Assistant, IBM Planning Assistant, IBM Document Retrieval Assistant, IBM legal dictionary and IBM legal templates.
- o Law Firm Secretarial contains IBM DisplayWrite 4, IBM DisplayWrite Legal Support and IBM DisplayWrite Index Support.
- o Law Firm Financial contains Manac Information System for Attorneys - Client and Lawyer Financial and Manac Information Systems for Attorneys - Law Firm Financial G/L.
- o Law Firm Practice Management contains Manac Information System for Attorney - Litigation Support, and Manac Information System for Attorneys - Client Files, Conflict and Dates.

Legal Profession Series requires an IBM Personal System/2 Model 30, 50 or 60 with one double-sided diskette drive and a 20MB fixed disk; 512KB of user memory; monochrome display; a Proprinter or Quietwriter; and DOS 3.3. It also operates with certain configurations of the IBM PC XT, PC XT Model 286, and Personal Computer AT with DOS 2.1 or higher.

### Doctor's Office Management

Doctor's Office Management SolutionPac requires an IBM Personal System/2 Model 30, 50 or 60 with 512KB of user memory (640KB for networking), one double-sided diskette drive, a hard disk, a color or monochrome display, printer and DOS 3.3. It will also operate on several configurations of the IBM PC XT and Personal Computer AT with DOS 3.1. The IBM Personal System/2 Model 30 and PC XT should only be used as stand-alone systems.

### Construction Industry Series

Each Construction Industry Series SolutionPac consists of: Timberline(R) Starter Set, Timberline Software - Report 1, Timberline General Ledger, and Timberline Accounts Payable.

In addition, the Homebuilder SolutionPac contains Timberline Job Cost; the Contractor SolutionPac contains Timberline Job Cost and Timberline Payroll; and the Architect and Engineer SolutionPac contains Timberline Architect and Engineer.

Construction Industry Series requires an IBM PC, PC XT, Personal Computer AT, IBM Personal System/2 Model 30, 50, 60 or 80, 320KB of user memory (512KB for network versions), a hard disk, serial port, 24 X 80 column display, printer and DOS 2.1 or higher (DOS 3.1 for network versions).

### Business Adviser Financial Accounting

Business Adviser Financial Accounting requires IBM Personal System/2 Model 30, 50, 60 or 80 with one double-sided diskette drive and a hard disk, a printer, a display and DOS 3.3. It can also run on many configurations of the IBM PC, PC XT, and Personal Computer AT with DOS 2.0 or higher.

Each Business Adviser Financial Accounting SolutionPac provides publications to assist in implementation and training as well as additional reports and productivity aids.

### CADwrite Design and Drafting System

CADwrite Design and Drafting System requires an IBM PC, PC XT, PC XT Model 286, Personal Computer AT, IBM Personal System/2 Model 30, 50, 60 or 80 with 512KB of user memory, one diskette drive, one fixed disk, display, RS 232C attachment, math coprocessor (as appropriate), a locator input device (such as IBM 5083 Tablet Model 11 or 12 or the IBM Mouse). The SolutionPac contains all required software.

DisplayWrite 4/2(TM)

DisplayWrite 4/2 requires IBM Personal System/2 Model 50, 60 or 80 running under the IBM Operating System/2(TM). It will also operate with certain configurations of the IBM PC XT Model 286 and Personal Computer AT. DisplayWrite 4/2 will accept files from IBM DisplayWrite 2,3 or 4 and IBM DisplayWrite Assistant.

Storyboard/2

Storyboard/2 requires IBM Personal System/2 Model 30, 50 or 60 with 320KB of user memory (for 320 x 200 - 4 colors) up to 512KB (for 640 x 350 or 480 - 16/64 colors), appropriate adapter/display combinations, printer and DOS 2.1 or higher. Numerous configurations of IBM's original personal computing family are also supported.
