This edition of Chart Watch covers x86 and PowerPC processors for PC and Apple Macintosh systems. The first table shows the latest pricing for Intel processors. The second table provides comparable pricing from other x86 vendors.

The figure at the right shows historical Intel list pricing back to 3Q98 and MDR's projected Intel pricing through 3Q00. The figure below graphs the manufacturing costs of these chips as estimated by the MDR Cost Model.

The table below shows list prices for Motorola PowerPC chips.
