The Digital World on the Cheap

The digital revolution: it takes a diverse crowd to make it happen, and they'll be congregating at **Digital World '95** in the Los Angeles Convention Center for three days beginning June 5. The show includes more than 100 exhibitors, demonstrations, the Interactive Media festival, Cinepak Live!, and the Creative Cafe sponsored by the Writer's Guild of America.

Admission to all three days costs only \$50. A complete program is available for perusal on the World Wide Web at <http://www.sbexpos.com>. For more information call Softbank Expos (San Mateo, Calif.) 800.488.2883; fax 415.525.0198.

When the U.S. Copyright Office Speaks...

The firm of Aspen Law & Business is holding a two-day seminar on the influence of copyright law on the National Information Infrastructure. The sixth annual **U.S. Copyright Office Speaks** will be held June 5-6 at the Beverly Hilton Hotel in Los Angeles. The Hon. Marybeth Peters, U.S. Register of Copyrights, and her staff will report on new directions and recent computer-related cases in software protection, decompilation, reverse-engineering, and nonliteral expression.

Regular registration runs \$795, with a \$100 discount for additional attendees from the same company. Government and not-for-profit employees can attend for only \$410. For more information, call AL&B (Englewood Cliffs, N.J.) at 201.894.8260; fax 201.894.0074.

In the Beginning...

The IEEE Computer Society Press is offering a new series of books on computer history. This surprisingly extensive collection includes *The Early History of Data Networks*; *Babbage: Passages from the Life of a Philosopher*; and the 750-page compilation *Computer Pioneers*.

The books are priced between \$18 and \$45 with discounts available to IEEE members. For more information, call the IEEE (Los Alamitos, Calif.) at 800.272.6657; fax 714.821.4010.

A Very PC Gathering in New York

The 13th annual **PC Expo** will be held in New York City on June 20-22 with more exhibits, more buyers, and more seminar tracks than ever before. The 1995 curriculum includes 45 seminars in nine specialized tracks covering mobile computing, Windows, multimedia, networking, and emerging technologies, among others. Keynote speeches will be delivered by Compaq's Eckhard Pfeiffer and Ray Noorda, former CEO of Novell.

Registration ranges from just \$40 for a one-day exhibits-only pass to \$1,295 for the full conference, tutorials, and workshops. For more information, or to register, contact the Blenheim Group (Ventura, Calif.) at 801.655.8024; fax 805.654.1676.

Codesmiths of the World, Unite

The Association of Computing Machinery (ACM) is hosting its **Programming Languages Summer Extravaganza** in June at the Hyatt Regency in La Jolla (Calif.). Five courses are offered, beginning with the Conference on Programming Language Design and Implementation (6/18-21); Workshop on Language, Compiler, and Tool Support for Real-Time Systems (6/21-22); Symposium of Partial Evaluation and Semantics-Based Program Manipulation (6/21-23); Haskell Workshop (6/25); and ending with the Conference on Functional Programming Languages and Computer Architecture (6/26-28).

Fees range from \$40 to \$460. The Web page at <http://www.research.digital.com/wrl/projects/sigplan95/> is available or call ACM SIGPLAN (Maitland, Fla.) at 407.628.3602; fax 407.628.3186.
